Ethics matter. It's not just the big scandals you see in the news, but the small everyday decisions that add up, too. In fact, that's where you need to draw the line—with the little things—before serious damage is done.

This award-winning employee ethics training video follows four realistic scenarios that demonstrate the importance of basic values such as respect for others, fairness, and honesty. And it teaches a three-part decision-making process that helps employees find their way to a solution even in complex situations where the right answer doesn't come easily.

Employees all share the responsibility to act ethically and to speak up if they see coworkers behaving badly. Use this employee ethics training DVD or online video to raise awareness, provide a framework for ethical decision making, and help create a company that employees can be proud of.
