

# Introduction to Programming

## Introduction to Programming Concepts

Product Id (373691)

🕒 2h 4m 22s | 📁 Programming & Development | 📁 6 module(s) | 📊 All

This 90-minute course is an introduction to basic programming concepts and is perfect for those who want to learn how to program, but don't know where to start. Rather than focusing on a single programming language, this course will teach prospective programmers three basic principles: introduction to objects, program design basics, and coding basics.

Successful completion of this course will unlock the Introduction to Programming Concepts course completion badge.

A Certificate of Completion can be earned by scoring 80% or better on all Post-Assessments. A Badge can be earned by scoring 90% or better on all Post-Assessments.
