Autodesk Certified User (ACU) Revit

Product Id (502349)

🕒 3h 17m 1s | 🏢 Autodesk | 📁 4 module(s) | 📶 All

✔ Has resources

The AutoDesk Revit Architecture 2019 course will teach you how to create and modify grids, levels, walls, doors, etc. and then show you how to model and modify those elements. You will also learn how to manage views and create 3D renderings of your projects. Finally, the course will demonstrate how to manage documentation associated with your projects. Not only will this course help you to master the skills you need to be competitive in the field of architectural design, it will prepare you to sit for the AutoDesk Revit Architecture Certified User exam.

A Certificate of Completion can be earned by scoring 80% or better on all Post-Assessments. A Badge can be earned by scoring 90% or better on all Post-Assessments.
