✔ Has resources

The Adobe InDesign CC 2018 course teaches designing page layouts for both print and Web. The course uses a step-by-step approach to demonstrate the basics of the application and interface and then gradually moves on to more advanced and complex aspects of the software. Methods for efficiently performing common layout tasks using various tools and on-object controls are taught, as well as learning how to use formatting tools to produce high quality documents. With the goal of preparing a user for certification, the course follows the exam objectives from working in the design industry to publishing your creation for web and print. Users who complete the course, whether seeking certification or not, will improve their employability and marketability in the design industry.

A Certificate of Completion can be earned by scoring 80% or better on all Post-Assessments. A Badge can be earned by scoring 90% or better on all Post-Assessments.
